

Moskito Island

June 22 - 26, 2025

Two Estates. One Island. Infinite Possibilities.

**This will not be an ordinary retreat.
For the first time ever, two dynamic groups—Full Circle and
Maverick1000—are coming together for a unique
collaboration that you won't soon forget.**

**This is your private invitation to join a group of
Maverick entrepreneurs on Moskito Island, the newest
jewel in the Caribbean and one of the most exclusive
private islands in the world.**

**Crafted by Sir Richard Branson and a small group of
visionaries, Moskito is sprawled across 125-acres and
offers a one-of-a-kind experience in the most secluded
unspoiled setting in the British Virgin Islands.**

WHAT TO EXPECT

MORNING: INSPIRATION & IMPACT

Perhaps you'll start your day with some yoga, a tennis lesson or an early morning swim. Then, here is where it gets interesting...after breakfast you will join in on YOUR CHOICE of two tracks of Growth Sessions.

Track #1: The Full Circle Track: Business Mastery & Strategic Insights at Founder's Estate, curated by Maverick member John Ratliff. Founder of Full Circle, Managing Director & Partner of align5 and former CEO of Scaling Up Coaches and Appletree Answers.

Track #2: The Maverick Track: Personal Growth, Longevity, Consciousness & More at the Oasis Estate, curated by Yanik Silver & Sophia Umanski.

The Even Better News? You don't have to just choose one! You can mix and match sessions based on what you're wanting and needing most.

AFTERNOON: EXPLORE, CHILL & PLAY

In the afternoons, we unite for impact, adventure, play and connection. AND, you will also have curated time to 'choose your own adventure.' Take a kiting lesson, go snorkeling, hit the beach, get a massage or maybe just find a hammock to just 'be.'

EVENING: GOOD EATS & MAGICAL BEATS

The evening vibes on Mosquito will include beautiful meals prepared by the island's incredible culinary team. After dinner, you may find yourself in deep conversation, singing, dancing, playing or simply stargazing and taking in the magic of the BVI...it's palpable.

ACCOMMODATIONS

THE OASIS estate mirrors the elegance and luxuries of a modern megayacht, including a private chef and dedicated crew. An impressive waterfall cascades from the main entrance into the expansive pool, winding past loungers and shallow areas to meet a hot tub, swim-up bar and poolside suites. The seamless flow between indoor and outdoor spaces creates a captivating sensation of being on the water while the verdant surroundings anchor you to the island.

THE OASIS

THE FOUNDER'S ESTATE

Perfectly perched on a hill, THE FOUNDER'S ESTATE offers 270 degree ocean, island and sunset views encompassing Necker Island and the entire North Sound. The magnificent Great Room blends indoor and outdoor living while inviting in cooling tradewind breezes. A glorious infinity pool, with swim-up bar and hot spa area, is the best place to soak in the breathtaking sunsets.

THINGS TO DO

Welcome to Moskito Island, your private island paradise. This is barefoot luxury in a setting that's just about as exclusive as it gets. From the sandy white beaches, scenic hiking trails and crystal clear waters, Moskito is a magical island experience you'll never forget.

WATER. The highly qualified watersports team can call on the latest state-of-the-art equipment to help you get on the water! Here are just a few ideas... kiteboarding, SUPs, seabobs, e-foiling, kayaking, snorkeling and more.

LAND. If you don't quite have your sea legs yet, or if you prefer to look at the ocean rather than taking the plunge, there is plenty to keep you busy on the island itself. How about an island hike, a tennis, yoga, pickleball or a simple walk on the beach?

SPA. In the mood for a little extra relaxation? Take advantage of a fabulous spa treatment in an incredible setting overlooking the Caribbean Sea.

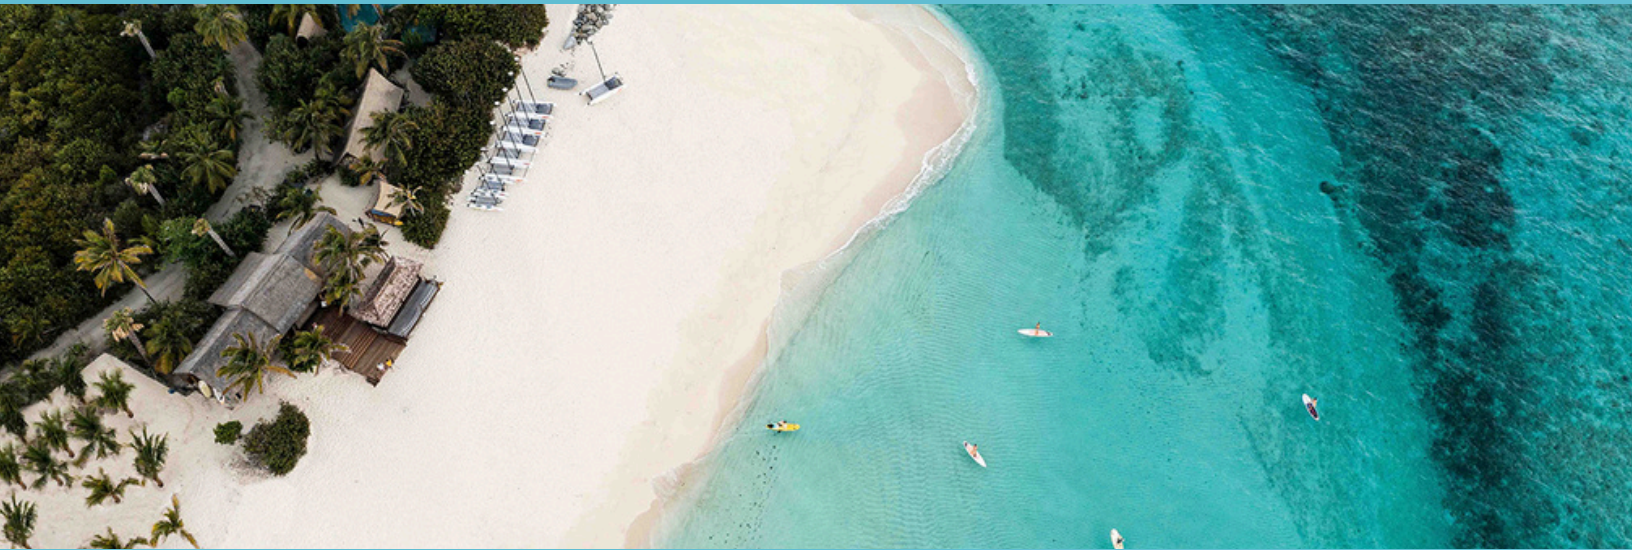

OUR IMPACT PARTNER

Our Impact Partner on Moskito will be GreenVI, whose mission is to demonstrate, facilitate and catalyze environmentally friendly systems through practical projects, education and innovation, with focus on waste, energy and water.

Our group will come together to help evolve the Initiative we ideated with them back in March, with our goal being to make Virgin Gorda the first island to be completely free of plastic water bottles! We will also have a conversation in support of Green VI's plan to completely revamp the Waste Management System on Virgin Gorda in order to remove toxic waste from the Ocean and Virgin Gorda's potable water system.
