

# awaken the dreamer

Two Estates. One Island. Infinite Possibilities.

Moskito Island, BVI

November 1-5, 2025

“dreams are not just visions.  
they are invitations.”

**-Yanik Silver**

this is the moment

This is a time for dreaming; but not just while we sleep. It's a time to dream as we lead. To dream while we create. And definitely a time to dream as we collectively envision what's next.

the invitation

Join us on Moskito Island, where we will go beyond brainstorming and into dream weaving. A space where imaginations awaken, ideas come to life, and futures get activated.

This is a place where visionaries align, and where the dreamers—yes, you—get to dream even bigger.

DREAM

# explore

Various indigenous cultures have worked with dreams for guidance, for healing, and for decision-making for many many years. Meanwhile, modern neuroscience reveals the power of brainwaves and consciousness to shape our reality.

Together, will connect with our dreams—both individually and as a collective - across every area of life. Health, vitality, relationships, lifestyle, business and impact - let's explore what's possible when visionary Maverick entrepreneurs gather in a space of shared intention on a beautiful island that was in fact; built on dreams.

## a collaboration

It's time for collaboration so for the first time ever, Maverick will be co-hosting this experience with the Full Circle Mastermind. Maverick will bring its signature blend of Growth, Impact, and Fun while Full Circle will provide its expertise in business strategy, scaling, and exit planning.

# dreamer's dawn.

**Start the day your way-** maybe its yoga, or hitting the tennis courts, an early morning swim or just hitting snooze.

After breakfast, you'll step into your own journey of expansion by choosing between two thoughtfully curated Growth Tracks designed to help you explore, awaken and activate the dreamer within.

## track 1.

**TRACK #1:** Strategic Visioning & Business Mastery. At the Founder's Estate, the Full Circle track- curated by Maverick member, John Ratliff will dive into business growth, scale, exit planning and strategy.

With John being the founder of Full Circle, Managing Director & Partner at align5, and former CEO of Scaling Up Coaches and Appletree Answers you can expect bold business conversations, real-world strategies, and next-level thinking with one of the sharpest minds (and biggest hearts) in the game.

## Breakout Session

**TRACK #2:** The Maverick Track: Personal Dream Activation & Conscious Expansion at the Oasis Estate. Here we'll explore indigenous dream wisdom, brainwave states, and how to connect or re-connect with our dreams around health, vitality, relationships and purpose.

## your path

**The best part?** You're not locked into one track. Mix and match to follow your own inner compass – choosing the sessions that align most with where you are and what you're seeking each day.

# daydreaming

Some afternoons will be for group connection and play, others for Open Dreamspace. Whether it's kitesurfing, diving, enjoying a beachside massage or finding a quiet spot to "just be," this is when our private island becomes the playground of your dreams.

# dreaming after dark

As the sun dips below the horizon, the island transforms. Evenings on Moskito are infused with wonder—where chef-crafted dinners become sacred gatherings, conversations stretch late into the night, and spontaneous moments of music, dancing, or starlit storytelling remind you of why you came.

# lay of the land

Welcome to Moskito Island, your private island paradise. This is barefoot luxury at it's best. From sandy white beaches, scenic hiking trails and crystal clear waters, Moskito is a magical island experience you'll never forget.

Crafted by Sir Richard Branson and a small group of visionary entrepreneurs, Moskito is sprawled across 125-acres and sets the tone for an incredibly unique experience.

# the oasis estate

THE OASIS estate mirrors the elegance and luxuries of a modern megayacht, including a private chef and dedicated crew. An impressive waterfall cascades from the main entrance into the expansive pool, winding past loungers and shallow areas to meet a hot tub, swim-up bar and poolside suites.

The seamless flow between indoor and outdoor spaces creates a captivating sensation of being on the water while the verdant surroundings anchor you to the island.

Take A Peek...

# the founders estate

Perfectly perched on a hill, THE FOUNDER'S ESTATE offers 270 degree ocean, island and sunset views encompassing Necker Island and the entire North Sound.

The magnificent Great Room blends indoor and outdoor living while inviting in cooling tradewind breezes. A glorious infinity pool, with swim-up bar and hot spa area, is the best place to soak in the breathtaking sunsets.

# things to do

**WATER.** The highly qualified watersports team can call on the latest state-of-the-art equipment to help you get on the water! Here are just a few ideas... kiteboarding, SUPs, seabobs, e-foiling, kayaking, snorkeling and more.

**LAND.** If you don't quite have your sea legs yet, or if you prefer to look at the ocean rather than taking the plunge, there is plenty to keep you busy on the island itself. How about an island hike, a tennis, yoga, pickleball or a simple walk on the beach?

**SPA.** In the mood for a little extra relaxation? Take advantage of a fabulous spa treatment in an incredible setting overlooking the Caribbean Sea.

# our impact partner

**We'll be reuniting with our partners at Green VI to further the powerful initiative we co-created on Necker Island –our shared vision of making Virgin Gorda the first island in the Caribbean to be completely free of plastic water bottles.**

**Together, we'll build on that momentum and also support their bigger dream of transforming Virgin Gorda's entire waste management system and safeguarding the island's precious potable water supply.**

(click here)

A group of people, including men and women of various ages, are standing in a circle outdoors, holding hands. They are dressed in casual outdoor attire like t-shirts, tank tops, and caps. The background shows some greenery and a wooden structure. The image has a dark overlay to make the white text stand out.

# your dream team

Dreaming isn't a solo act. One of the most powerful parts of this experience will be coming together in deep, intentional community to amplify and accelerate each other's dreams.

Through a special session we're calling 'The Dream Team,' we'll tap into the multiplier effect of shared vision, resources, and the collective wisdom of the community.

This will be your opportunity to declare your dreams, be witnessed in them, and receive powerful insights, connections, and support from fellow Mavericks. When a group like this comes together, the impossible starts to look inevitable.

# step into the dream
